COURSE OVERVIEW & STRUCTURE

This qualification reflects the role of individuals who apply knowledge, practical skills and experience in leadership and management across a range of enterprise and industry contexts.

Individuals at this level display initiative and judgement in planning, organizing, implementing and monitoring their own workload and the workload of others. They use communication skills to support individuals and teams to meet organisational or enterprise requirements. They may plan, design, apply and evaluate solutions to unpredictable problems, and identify, analyse and synthesise information from a variety of sources.

TEACHING AND ASSESSMENT METHODS

Teaching methods focus on classroom based face-to-face training, which includes lectures and practical tutorials. Classes are small in size and lecturers focus on individual student needs during the learning process. The emphasis in assessment is on collection of evidence, holistic assessment against the unit of competency and trainer/assessor judgment. Importance is placed on the integration of areas of theoretical knowledge, practical skills and proper work attitudes.

The following assessment methods are used:

- Written examinations
- Written and oral quizzes
- Simulated workplace activities/scenarios/role plays
- Projects/assignments/presentations
- Classroom activities

Learning and assessment generally take place in an integrated classroom and simulated workplace environment.
