COURSE OVERVIEW & STRUCTURE

This qualification reflects the roles of individuals who apply specialised knowledge and skills, together with experience in leadership and management, across a range of enterprise and industry contexts.

Individuals at this level use initiative and judgement to plan and implement a range of leadership and management functions, with accountability for personal and team outcomes within broad parameters.

They use cognitive and communication skills to identify, analyse and synthesise information from a variety of sources and transfer their knowledge to others, and creative or conceptual skills to express ideas and perspectives or respond to complex problems.

TEACHING AND ASSESSMENT METHODS

Teaching methods focus on classroom based face-to-face training, which includes lectures and practical tutorials. Classes are small in size and lecturers focus on individual student needs during the learning process. The emphasis in assessment is on collection of evidence, holistic assessment against the unit of competency and trainer/assessor judgment. Importance is placed on the integration of areas of theoretical knowledge, practical skills and proper work attitudes.

The following assessment methods are used:

- Written examinations
- Written and oral quizzes
- Simulated workplace activities/scenarios/role plays
- Projects/assignments/presentations
- Classroom activities

Learning and assessment generally take place in an integrated classroom and simulated workplace environment.
